PROJECTS

STUDDY BUDDY

A Study Buddy App is an educational application designed to help students study in a smarter and more organized way. It allows users to create study schedules, manage tasks, set reminders, store notes, track academic progress, and collaborate with friends for group studies and doubt solving. The app improves productivity, time management, and learning efficiency, making studying easier and more interactive for school, college, and self-learning students.

Cake Orders

Built a full-stack cake ordering website, Sanika Cakes, designed to provide a seamless online cake customization and ordering experience. Developed responsive user interfaces using HTML, CSS, and JavaScript, with features including cake catalog browsing, cart functionality, order placement, and customized cake requests. Focused on user-friendly design, smooth navigation, and real-world business functionality to enhance customer experience.
